## Welcome!

Nursing education and training is an essential part of [ICAP's](#) mission to ensure the health of families and communities around the world.

This platform was developed to support online learning for nurses and midwives and to share resources with nursing education institutions.

# What this has achieved...

- NEPI has increased the nurse – midwife workforce – effectively combating maternal and infant mortality and HIV/AIDS and communicable diseases which have decimated populations in Africa
- Increased students clinical skills and competencies through construction, renovation and refurbishment of clinical simulation laboratories
- Strengthening nurse – led teaching and learning models – NIMART
- Supporting nursing policy environment which impacts nursing education and training through partnerships with various stakeholders
- Health workforce retention – innovative training in rural, hard – to reach areas
- Task – shifting – nurses taking on some physician roles and community health workers taking on some nurses roles
- Multidisciplinary teaching and learning with other cadres – doctors, pharmacists and medical laboratory technologists
- Strengthening the participation of African nurses and midwives to participate in south – to south exchange and learning

Thank you for listening to me
